Where Special *Caring* Creates Miracles

## Colloidal Silver – A Natural Medicine Breakthrough

Researchers say silver (Ag) has venerable attributes far and above its monetary value orally or topically. Colloid formation is an electromagnetic process of suspending microscopic silver particles in a water medium. An anti microbial/anti-viral, it disables the enzyme pathogens use for oxygen.

**Effective against 650 infectious agents, no known disease-causing organism can live in the presence of silver (most killed within 6 minutes).**

Colloidal silver circulates in the body for up to 7 days when ingested although most is eliminated within 24 hours. Evidence shows it is absorbed into the bloodstream within second's even penetrating bone. Water plays a key role in utilization. A natural germicide, Argylol (silver salt) was once widely used by hospitals as a non-toxic disinfectant. Colloidal silver is a rapid pain reliever including gout, trauma, post surgery or root canal infections (pain gone in 10 minutes). As a superconductor, silver restores the electrical charge to the damaged area. Pain occurs when interruption to normal energy flow of 50-70 millivolts drops toward zero (typical of injury.) Low current also impedes healing. EPA studies show silver through the blood-brain barrier, making it remedial for brain cancer. Silver removes toxins through the pores on a cellular level and helps treat

**Hepatitis, herpes, leukemia, arthritis, parasites, lyme disease, gonorrhea, staph, strep, pneumonia, cholera, malaria, chronic fatigue, HIV, bubonic plague and canine parvo virus.**

But for all its benefits, silver must be used with discretion. EPA studies show that increased susceptibility results from antibiotics, low metabolism (hypothyroidism) or deficient vitamin E and selenium (selenium binds with heavy metals like silver and acts as a chelator). Colloidal Silver does not interact with medications and does not deplete the immune system, and does not upset the stomach (actually aids digestion).

A low-cost protection for pets, plants and people. A real Natural Medicine Breakthrough.
